## **Our Vision**

### **We have one core purpose:**

To have the biggest positive impact in the varied communities we serve through ensuring top drawer education for our learners. #TransformingLives

### **How do we ensure this across our trust?**

#### In all we do we are:

1. Ethical to the core, ensuring that education is always front and centre
2. Futures focused system leaders – never simply followers
3. Collaborative in every endeavour
4. Resolutely learner centred.

### **What does this look like across our trust?**

#### Education

We are:

1. Ruthlessly ambitious for all who learn and work with us
2. Unwaveringly inclusive – determined on eradicating barriers to educational success
3. Committed to excellent teaching
4. Determined upon academic excellence for all in our communities
5. Compassionate, ethical and caring advocates for all in our communities
6. Outwardly facing and globally conscious

#### Operations

We are:

1. Committed to the very best people development and empowerment
2. Determined to shout loudly and share proudly our successes
3. The best professional and technical experts (supporting education) in the sector
4. Committed to the very best understanding and management of risk

#### Financial

We are:

1. Providing the best possible public service for the best possible value
2. Determined to supplement our public income with shrewd income generation
3. Building financially sustainable models of educational improvement in our communities
4. Demonstrably efficient in all we do

### **Our values**

- We will work inclusively within our communities, embracing the varied localities we serve while sharing our common vision and values.
- We will develop the very best leaders of the future, working to improve education and transform lives.
- We will adhere unwaveringly to the ‘Nolan Principles’ of Public Service, which is made clear in our commitment to Ethical Leadership.

## Statement of Intent

It is our core responsibility to ensure that students have access to the very best education possible. One of the most fundamental and influential aspects of a child's education is the curriculum that they have access to. The power of curriculum is immense. It has the power to not only transform an individual, but to also transform whole communities and shape their understanding of the world and their place in it. Therefore, it is imperative that the curriculum on offer within our academies is truly world class and gives students access to powerful knowledge that takes them far beyond what their own individual experience ever could. In order to achieve this we must ensure we expose all students 'to the best that has been thought and said and engender an appreciation of human creativity and achievement'. To truly transform lives we must not only show students what is possible but inspire and instil the confidence in them to go out and do it.

All learners in our academies will experience a curriculum that

1. is **ambitious** and **enjoyable** through knowledge and skills developed from Foundation Stage to Post 16 and Adult provision.
2. is **knowledge rich**, ensuring access to a wide, global cultural capital – thus maximising lifetime opportunities.
3. is **inclusive**, nurturing and tailored towards the needs of the individual.
4. is focused on developing the very best **oracy, literacy, numeracy** and **digital** skills – enabling access to the widest learning and the very best careers possible to ensure we develop global citizens.
5. is **enriching**, ensuring all experience a rich variety of cultural, artistic and sporting activities.
6. is **broad** in terms of coverage and (at least) encompassing the breadth of the 2014 English National Curriculum.
7. celebrates the uniqueness of each educational setting in terms of **localised knowledge and skills**.
8. **develops** character, personal pride and the highest moral standards.
9. celebrates **diversity**, challenges **injustice**, promotes **equality** and encourages the creation of a better world.
10. is delivered by well-qualified, forward-thinking, skilled, passionate **professionals**.

## 1 Legal Framework and Definitions

This policy has due regard to statutory legislation, including, but not limited to

- The Education and Inspections Act 2006
- The Health Act 2006
- The Equality Act 2010
- The Education Act 2011
- The Education (Independent School Standards) Regulations 2014.
- The Immigration Act 2016
- The General Data Protection Regulation (GDPR)
- The Data Protection Act 2018

This policy also has due regard to DfE/Ofsted guidance, including, but not limited to, the following:

- Inspecting the Curriculum, Ofsted, May 2019
- Statutory Guidance for Careers, DfE, January 2018

- Relationships Education, Relationships and Sex Education (RSE) and Health Education, DfE, June 2019
- National Curriculum in England: Framework for Key Stages 1-4, last updated December 2015

## 2 Scope of this Policy

- 2.1 This policy applies to all academy leaders, academy staff and academy learners.
- 2.2 For the purpose of this policy the reference to ‘pupils’ includes all learners in our academies.
- 2.3 For a glossary of the terms used in this policy refer to Appendix A.

## 3 Curriculum Leadership

- 3.1 Curriculum leadership requires attention to *what* is being learned. In our academies, middle and senior leadership teams share a curricular language for talking about curriculum and teaching – Appendix A. It is important that how the curriculum is viewed is clearly understood at all levels, from the Principal to teachers, teaching assistants and the non-teaching staff in order for it to be truly embedded as the vision and mission of the academy. All of our academies establish this approach in their own versions of the ‘**Curriculum Leaders Handbook**’.
- 3.2 Curriculum leaders work to **ensure** that the curriculum is fit for purpose and secondly to **assure** that it is delivered well and leads to an excellent quality of education for all students.
- 3.3 Curriculum leaders work collaboratively within and between our academies to design a curriculum which follows tight principles about what **content** is taught and how it is **sequenced**.
- 3.4 Curriculum leaders regularly **review** the design of the curriculum and routinely **quality assure** its implementation so that it achieves its intended purpose.

## 4 Curriculum Purpose

- 4.1 In establishing the purpose (intent) of our curriculum we refer to the following tight principles:
- That our curriculum is at least as broad and balanced as that of the National Curriculum.
  - That it is important for all pupils and particularly for those from disadvantaged backgrounds to have as broad a curriculum for as long as possible to build their knowledge of wider cultural capital.
  - That our curriculum can be adapted to meet the needs of vulnerable learners and those with SEND without lowering expectation and aspirations.
  - That all of our pupils are entitled to learn at least one modern foreign language because this develops their first language and increases their cultural capital. This begins in our primary academies and develops into the full EBacc entitlement at KS4 for as many pupils as possible. (60% of KS4 in 2021 and 75% by 2022.)
  - That all pupils are entitled to read widely and often.
  - That the development of pupils’ characters is as important as the teaching of academic knowledge.

- That the curriculum prepares pupils for life in modern Britain and works to develop social, moral, spiritual and cultural knowledge and understanding rooted in the principles of Fundamental British Values.

#### 4.2 The TNHA Curriculum Intent:

TNHA offers students a broad and balanced curriculum enabling them to leave our Academy fully equipped to play a role in modern Britain. Our curriculum enables students to improve not only their academic abilities but also their personal skills.

At TNHA we want our students to.....

- Be a good citizen and play an active role in their community
- Be confident when talking to their peers and adults
- Be able to work well as part of a team, listening and supporting others
- Be knowledgeable of a wide range of cultures and be respectful of the rights and needs of others
- Be resilient learners who can learn from their mistakes.
- Be ambitious and aspire to 'be the best that they can be'.

We also aim to provide our students with wider opportunities to broaden their experiences, enhance their learning, add to their employability skills and give them an understanding of the world of work.

To do this we encourage all subjects to make clear links with careers and employers relevant to their subject areas. Students meet and engage with employers and in Year 10 have the opportunity to complete one week of work experience. We believe that these opportunities provide students with the skills needed to be successful, ambitious learners. We have strong links with local sixth forms and colleges and aspire to all of our students successfully entering post 16 education or apprenticeships.

## 5 Curriculum Implementation

5.1 We consider the following principles when deciding how to implement the curriculum intent:

- When and how to teach new core and wider content.
- When and how to teach core skills including oracy, literacy and numeracy.
- When and how to revisit and build on prior learning so that each component of learning can build to become composite learning.
- What knowledge pupils should be able use with fluency (speed and accuracy) and by what stage of their education from their starting points.
- How to sequence learning so that the proximal and ultimate functions of knowledge build over time.
- How to ensure pupils will make expected or better than expected progress as a consequence of the curriculum purpose, design and implementation.
- In order to achieve a broad curriculum, how to ensure that all pupils, where applicable, in KS4 study a minimum of eight qualifications with every bucket filled with best practice to study nine. At KS5 how most pupils should follow a programme of three qualifications with some doing four.

5.2 Our curriculum implementation:

The curriculum at TNHA is designed to be broad, balanced and engaging. Subject teams create exciting, relevant courses for students. They focus not only on the academic skills but also on the personal skills that are essential for all subjects. Team work, communication, literacy, numeracy and empathy are key skills we value.

All students in KS3 study the following subjects:

<b>The Core subjects</b>	<b>Humanities</b>	<b>Creative Arts</b>	<b>Physical Education</b>	<b>Skills for Life</b>
English (8 hours)	History (4 hours), Geography (4 hours), Modern Foreign Languages (4 hours), LOOL (PSHE) (2 hours)	Art, Music, Drama, Design Technology (5 hours in total)	Physical Education (4 hours)	Reading and literacy lessons (1 hour) from September 2020.
Maths (8 hours)				Computer Studies (1 hour) from September 2020.
Science (8 hours)				

On arrival at TNHA students are set by ability across most subjects, except for PE and CARTS/ DT. Students are divided into two mixed ability bands and are then set by ability (using SAT's and class assessments) within each band. Sets are unique to faculties and students may move between sets in subjects. Sets are reviewed every term and changes made as needed.

Our KS4 curriculum is designed to be flexible and meet the needs of our learners. We do this through a range of 'pathways' at KS4. All students have the opportunity to study the 'core curriculum' of English, Maths, Science, LOOL, and PE. They are then able to choose from the following options:

History, Geography, GCSE PE, BTEC Business Studies, Travel and Tourism, Hospitality, Health & Social Care, Music, Art, Drama, DT, Computer Studies, MFL. ASDAN qualifications, the Princes Trust programme and Functional Skills are also offered to some students.

<b>The Core subjects</b>	<b>Options</b>	<b>Physical Education</b>	<b>Skills for Life</b>
English (8 hours)	Students choose 4 options from the list above. (Each option has 5 hours allocated to it)	Physical Education (4 hours)	PSHE/ LOOL (2 hour)
Maths (8 hours)			
Science (8 hours)			

At KS4 students are set by ability and are then banded. There are 5 ability sets in each year group. Band A contains sets 1-3, Band B sets 4 and 5. Students may move between sets in each band. Sets

are allocated using GCSE target grades and class assessments. They are reviewed regularly and changed as needed.

Through LOOL we deliver a series of lesson that cover Sex and Relationship Education, Careers, Personal safety, Mental Health awareness and British values. Students have opportunities to study these topics through discussion, stories, role play, debating and film. Students leave TNHA with the skills needed to be active citizens.

### 5.3 Teaching the TNHA way:

Three principles underpin the T&L policy at TNHA. We ask all of our teachers to focus on PLANNING, TEACHING and MARKING. If these areas are strong then we believe that student outcomes and student enjoyment in all areas will be outstanding.

All staff plan and teach their lessons using the TNHA Rubric. This outlines three parts of each lesson:

1. In the first 15 minutes
<ul style="list-style-type: none"><li>▪ Students complete a starter activity that recaps their prior learning and is assessed. (MAX 10 minutes).</li><li>▪ Teacher shows and discusses the lesson objective slide.</li></ul>
2. The main part of the lesson
<ul style="list-style-type: none"><li>▪ Teacher delivers new learning in chunks (MAX 10 minutes at a time).</li><li>▪ Questions are asked. NO HANDS UP!</li><li>▪ Students act upon new learning.</li><li>▪ Teachers circulate, check and challenge.</li></ul>
3. In the last 10 minutes
<ul style="list-style-type: none"><li>▪ At the end of the lesson students complete an exit activity that recaps today's learning (MAX 10 minutes).</li><li>▪ Return and reflect on objective slide.</li></ul>

### 5.4 Accessing the curriculum:

As a comprehensive academy, we are fully committed to the principle that all students, regardless of ability, cultural background or gender, have the right to the highest quality of education.

At TNHA we work to create an inclusive curriculum that engages all students in all subjects. Subject teachers plan broad and balanced programmes of study that are relevant, engaging and show clear progression through learning. They ensure that they deliver learning at appropriate levels of expectation offering challenge to all. This is achieved by providing courses of study and teaching methods which are tailored to the wide range of needs, interests and aspirations of our students. It also means that many features of the curriculum are common to all students. No student is denied access to any part of the curriculum on the grounds of ability.

Those students needing extra support are able to access help in a variety of ways. We offer additional support in literacy, numeracy, through mentoring programmes and mental health and well-being sessions.

For the most able/ talented students there are opportunities available in all subject areas to develop expertise and engage with additional learning. This may be within school during lessons or could be afterschool through clubs and visits.

#### 5.5 Homework at TNHA:

Homework at TNHA gives students the opportunity to practice, reinforce, or apply newly acquired skills and knowledge. Homework also serves to develop regular study skills and provides students with the chance to work independently.

<b>Key stage 3:</b>	<b>Key stage 4:</b>
English/ Maths/Science- 20 to 30 minutes of homework per week. History/ Geography/ Languages- 20 minutes every 2 weeks. Lool/ RE/ ICT/Carts/DT- 20-30 minutes of homework set as needed	English/ Maths/Science- 30 to 40 minutes of homework per week. Optional subjects- 30 minutes a week.

Homework tasks may take a variety of forms. For example, revision, research tasks, written tasks, practical tasks, online learning may be set (although access to the internet must be considered), and many subjects now use the ‘takeaway homework menus’ where students have choices over the tasks they complete. In Year 11, tasks should be focused on revision, recall of information and recap of prior learning in preparation for the exams.

Homework tasks will be communicated to students through email/ MS Teams. Students should regularly check their email accounts and Teams groups for assignments. Parents will receive notifications of assignments as they are added.

Opportunities for students without internet access to complete homework are provided at lunchtimes and after school through homework clubs.

## 6 Curriculum Maps

- 6.1 Every subject/phase has a curriculum map that sets out what will be taught and in what order as well as key assessment points.
- 6.2 There is one map per year group and each one links to the preceding and next year. Wherever possible the map also includes links to the relevant ‘Knowledge Organiser’ setting out the core knowledge for that part of the curriculum.
- 6.3 All of this information is shared with pupils, parents/carers, governors and other relevant stakeholders through the academy website.

## 7 Wider Curriculum

- 7.1 In our academies the curriculum is not just that which is taught in subject lessons. It is the sum of experiences that combine together to develop a child into the adulthood. To this end the

experiences that pupils have in social times and during co-curricular or enrichment activity is of equal value to what they learn in 'lessons'.

- 7.2 Our academies deliver programmes of education which develop pupils' personal and social characters. See our Personal and Social Development and Character Education programmes for further detail.
- 7.3 Our academies believe that it is important to prepare pupils for the next stages of their education/life through an effective careers education programme which is based on the Gatsby Benchmarks. See our CEIAG policy and programme for further detail.
- 7.4 The curriculum has a vital role to play in developing pupils' positive behaviour and attitudes to learning. This includes teaching about mutual respect for all and an understanding of the importance of democracy; the rule of law; individual liberty and tolerance for those with different faiths and beliefs and for those without faith.
- 7.5 Pupils are taught what constitutes good behaviour and what the benefits of good behaviour are. See Behaviour Policy for further detail.
- 7.6 Social, emotional and behaviour skills are taught within the curriculum so that this together with our effective wider work supports pupils to be confident, resilient and independent, and to develop strength of character.

## **8 Enrichment**

- 8.1 Enrichment is rooted in our academy values, forming a golden thread within and beyond the curriculum.
- 8.2 Enrichment opportunities are centred on the needs of all pupils, including the most vulnerable, and the context of the local community.
- 8.3 We deliver enrichment through a coherently planned, extensive range of rich experiences and breadth of curriculum content that is based on pupils' relative starting points; equipping them with the powerful knowledge, cultural literacy and moral compass needed to be successful within and beyond their formal education.
- 8.4 Enrichment inspires, engages and enhances every pupils' opportunity and desire to develop, widen and celebrate their talents and interests within and beyond the curriculum.
- 8.5 We actively seek to engage parents, carers and the local community as partners, encouraging them to contribute to and share in their children's personal development and success.
- 8.6 Every pupil has an Enrichment Passport in which they capture and record their participation in enrichment activities.

## **9 Intervention**

- 9.1 Not every pupil has the same starting point and there are times when the curriculum needs to be adapted for individual learners.
- 9.2 Our academies develop a range of intervention strategies to support learners to fill knowledge gaps.
- 9.3 Pupils who are identified at assessment points as being below the age-related expected standards are given individual or small group interventions over defined periods of time. Pupils are assessed at the beginning and end of the intervention programme so that progress can be tracked.

## **10 Assessment**

- 10.1 The curriculum is the progression model. Students have made progress if they have learned the intended curriculum. In our academies we believe that teachers should be teaching to the curriculum and not to the test. With this in mind, it is important that we respond to the important curriculum changes and the focus upon solid quality first teaching with a secure and rigorous assessment strategy which is fit for purpose.
- 10.2 Formative assessment is a form of assessment which helps capture what students do and don't know and allows teachers to address these gaps. Formative assessment can take both verbal and written forms.
- 10.3 Rigorous summative assessment is undertaken in our academies to provide valid and reliable information about how well students in our academies have learned the curriculum that we are teaching them. Summative assessments create data and information which has shared and consistent meaning.
- 10.4 In our academies staff are asked for assessment information three times per year. Anything more regular than this does not provide meaningful data about how well students have learned the curriculum.
- 10.5 Assessments are standardised both internally and externally in our academies. For our core subjects, leads meet regularly in TNGs (Team Network Groups) to standardise assessments across our academies. At KS4 this is assisted by the selection of common examination boards for the EBacc subjects.
- 10.6 See our Assessment, Recording, Reporting and Exams Policy for further detail.

## **11 Staff Training and Support**

- 11.1 We build regular opportunities for staff in our academies to develop their subject, pedagogy and pedagogical content knowledge through individual and group training.

- 11.2 Team Network Groups are subject specific and meet up to six times a year to develop curriculum plans, schemes of learning and lesson resources.
- 11.3 Strategic Development Groups address wider curriculum issues and also meet up to six times a year.
- 11.4 We encourage staff to attend webinars, training days and development activities through our ATT Institute and those offered by external organisations.
- 11.5 Training needs for individual staff are routinely linked to their development targets and PDCs (Professional development Conversations) take place regularly throughout the year.
- 11.6 We deliver bespoke training for new entrants to the professions and for those recently qualified or returning to the profession.

## **12 Review**

- 12.1 The application of this policy in our academies is reviewed by the Regional Education Directors as part of the CSI (Challenge, Support and Intervention) Strategy.

## Appendix A Glossary of Curriculum Language

Quality of Education	A rounded view on the quality of education an academy provides: the appropriateness of the curriculum intent (taking into consideration narrowing/flexibility), the extent to which it delivers on this intent (Impact), and how well it is delivered at subject/classroom level (implementation).
Intent	What the curriculum is building towards and how it is planned to get there taking into account the local context whilst ensuring students acquire the knowledge and skills to take advantage of opportunities, responsibilities and experiences in later life. This is set at Trust, academy and subject/phase level with each being intrinsically linked to the others.
Implementation	How the curriculum is taught at subject/classroom level.
Impact	What students have learned.
Component	Individual items of knowledge that students will learn.
Composite	Components combine together to form composites, combined they become more complex composites.
Fluency	The ability to retrieve knowledge quickly and accurately.
Cultural Capital	'It is the essential knowledge that students need to be educated citizens, introducing them to the best that has been thought and said and helping to engender an appreciation of human creativity and achievement.' (Ofsted S5 Handbook 2019) In our Trust this is not a tick box for each topic or lesson but is rooted in the curricular culture of our academies.
Core Content	This refers to the substance of the curriculum that students must know and remember to ensure a secure foundation in their schemata development.
Wider Content (Hinterland)	This is the content that sits outside of the core. It might be about the bigger picture. For example, the full novel. Without acknowledging and using such wider content, the core (a small passage from a novel) may not have true meaning. Wider content is often what makes knowledge rich and memorable for students.
Substantive Knowledge	The knowledge produced by an academic subject, which is made up of established facts that are uncontested.
Cumulative knowledge	This is where knowledge is not wholly reliant on students having previously studied a 'certain' topic, which means there are many pathways to mastering the content.
Hierarchical Knowledge	This means that you cannot teach one topic until students have 'mastered' the prior knowledge - e.g. times tables before fractions.
Disciplinary Knowledge	Disciplinary knowledge refers to what pupils learn about how that knowledge was established and constructed within the discipline, its degree of certainty and how it continues to be revised by scholars, artists or through professional practice. In some subjects, this is where there is space for judgement making, argument, open-ended challenges and subject thinking.
Curriculum sequencing	This is ultimately about <i>how</i> and <i>why</i> a certain section of the curriculum serves to prepare students for future content, such that it has a <i>proximal</i>

	<i>function</i> to make the next stage possible and <i>ultimate function</i> to do an enduring job. The aim is to build a student's knowledge and skills towards agreed end points whilst equipping them with the confidence to be able to create knowledge themselves.
Proximal Function	Each bit of a curriculum has a job to do. The proximal function is how the knowledge from this lesson supports the work planned in the next few lessons/weeks.
Ultimate Function	Knowledge acquired across a curriculum is durable and has an ultimate function, a future purpose. This knowledge supports students, over time, to develop deeper conceptual understanding. It allows individuals to not only eventually enter disciplinary conversations and debates with confidence but allows students to potentially become knowledge creators themselves in the future.
