

Safer Schools App

Downloading the App - it's easy!

- Go to the app store
- Search for 'Safer Schools' (look for the shield logo) or scan the below QR code.
- Download the app
- Type in the details shown on the phone diagram on this page.

Staff - Secondary
The Nicholas Hamond Academy

The Academy has signed up to the Safer Schools app which is an excellent tool to keep up to date on everything regarding Safeguarding. The app was designed by Jim Gamble who was the founding head of the Child Exploitation and Online Protection (CEOP).

The Safer Schools App is our school's digital safeguarding communication and training toolkit. It has been designed by safeguarding professionals to help make our entire school community safer online. The online contextual safeguarding information is tailored to specific roles providing our school with access to contemporary, credible and relevant content. It has different content depending on whether you are a staff member, student or parent.

Staff, parents and students are all encouraged to download the app so they can have access to up-to-date and relevant information on safeguarding issues as well as important and local contact details of safeguarding companies.
