Dear Parent/Carer

**Health & Social Care Course - Interviews**

As part of your child’s Health and Social care course, they have to complete 2 interviews. The first one for Task 1a involves interviewing someone between the ages of 11 – 18 years (although they can be slightly beyond this age) to find out how they have developed between these age ranges (physical, intellectual, emotional and social). For Task 1b they need to interview the same individual to find out how their growth and development has been impacted by emotional, social and physical factors. For each of these they need to have covered two subsections:

For Social factors they have the choice of:

Positive relationships
Negative relationships
Social inclusion
Social exclusion
Opportunities
Discrimination
Bullying

For the Emotional factors they have the choice of:

Anxiety/fear
Sadness/happiness
Grief
Attachment
Family Security

For physical factors they have the choice of:

Diet and nutrition
Lifestyle choices
Genetics
Physical and mental health
Disability
Sensory and impairment

-2-

Although the person being interviewed needs to be the same person, the events that they choose to discuss do not need to be within the same age span – it can have happened before or slightly after the 11–18-year age set for task 1a.

For Task 2a and 2 b (later this academic year) they have to interview another individual of any age. For this they will need to gain the ‘story’ of two life events.

Please can you complete the permission slip below to allow your child to complete the interviews necessary.

Yours faithfully

**Mrs K. Warnes**  
**Director of PSHEE/CEIAG & Teacher of Health & Social Care**
