

Paper 2: The Physical and Human Geography of the UK.

<u>Learn</u>	<u>Quiz</u>	<u>Practice</u>
<p>Complete the activities below. They will form an important part of your GCSE revision. Keep these resources safe- you will need them to revise from!</p> <p><u>Unit 4: Physical Geography of the UK.</u></p> <p><u>Types of rock:</u> https://www.bbc.co.uk/bitesize/articles/zdjhtdr#z2n2s82 Make flashcards of the 3 rock types. Include information about their formation, characteristics and names of rocks.</p> <p><u>Glacial landforms:</u> https://www.bbc.co.uk/bitesize/guides/zy9ncwx/revision/1 Draw diagrams to show how Glaciers erode. Add annotated diagrams of glacial landforms- explain how erosion creates these landforms.</p> <p><u>Coastal landforms:</u> https://www.bbc.co.uk/bitesize/guides/z82f9qt/revision/1 On A4 sheets, draw diagrams of a cave, arch, stack stump, and a discordant and concordant coastline.</p> <p><u>Coastal management:</u></p>	<p>Have a go at these quizzes to see what you have understood:</p> <p><u>Rock type quiz:</u> https://www.bbc.co.uk/bitesize/articles/zdjhtdr#zwp6xbk</p> <p><u>Glacial landforms:</u></p> <p><u>Coastal processes quiz:</u> https://www.internetgeography.net/coastal-processes-quiz/</p> <p><u>Coastal landform quiz:</u> https://www.internetgeography.net/coastal-erosion-landforms-quiz/</p> <p><u>River landforms quiz:</u> https://www.internetgeography.net/river-landforms-of-erosion-quiz/#google_vignette https://www.internetgeography.net/river-landforms-of-deposition-quiz/</p> <p><u>River management:</u> https://www.internetgeography.net/hard-engineering-management-of-rivers-quiz/</p>	<p>Complete these exam questions. Ask your teacher to mark them for you. Remember- write in full sentences. Use key words.</p> <p><u>Glaciation:</u> Explain one impact of glaciation on the landscape of the UK. (2)</p> <p>Explain one way in which glaciation has affected the physical landscape of the UK. (2)</p> <p>Explain one way in which weathering affects slopes. (2)</p> <p><u>Coasts:</u> Explain the difference between concordant and discordant coastlines. You may use a diagram to help your answer. (4)</p> <p>Explain two reasons why protecting some coastlines from erosion may have more costs than benefits. (4)</p> <p>Explain why differences in rock type affect the rate of erosion on UK coastlines. (4)</p>

Paper 2: The Physical and Human Geography of the UK.

<p>https://www.bbc.co.uk/bitesize/guides/ztykxsg/revision/1 Draw a mind map to show the main coastal defences. Add a diagram and explain how they work.</p> <p><u>River landforms:</u> https://www.bbc.co.uk/bitesize/guides/zpxc7hv/revision/1 Using flash cards, describe the formation of waterfalls, meanders/ Ox bow lakes.</p> <p><u>Flooding case study:</u> https://www.internetgeography.net/topics/flood-management-scheme-boscastle/ Create a mind map to describe the causes and effects of the Boscastle flood.</p> <p><u>Unit 5: Human Geography of the UK.</u></p> <p><u>Urban change in the UK:</u> https://www.bbc.co.uk/bitesize/topics/zn2xg2p/watch/zkq23qt Create flashcards to show how cities in the UK are changing.</p> <p><u>Growth of London:</u> https://www.bbc.co.uk/bitesize/guides/z3h7sg8/revision/1 Create a mind map of the factors that have affected the growth of London.</p>	<p>Population and settlement: https://www.bbc.co.uk/bitesize/topics/zvrp3qt/articles/zqmmvj6#z2ttg2p</p> <p>Fieldwork and skills: https://www.bbc.co.uk/bitesize/topics/zvrp3qt/articles/zqmmvj6#zf33wsg</p> <p>Types of fieldwork: https://www.bbc.co.uk/bitesize/articles/zg67tcw#zvngx82</p>	<p>Explain two differences between upper course and lower course river landscapes. (4)</p> <p>Explain how a meander is formed. (4)</p> <p>For a named river, explain why it floods. (4)</p> <p><u>Urban areas:</u> Explain two reasons why the land use of inner cities has changed in the past 20 years(4).</p> <p>For a UK city that you have studied, explain one positive and one negative effect of regeneration. (4)</p> <p>For a named UK city, explain one way in which migration has changed its population. (4)</p> <p>Using an annotated diagram that shows one way in which you presented the results of your data collection, explain your results.(4)</p> <p>For a UK city that you have studied, explain</p>
---	---	---

Paper 2: The Physical and Human Geography of the UK.

Fieldwork:

<https://www.bbc.co.uk/bitesize/guides/z3tnqty/revision/4>

Write flashcards of the different types of sampling.

Sketch a graph of your results from the beach profile, wave count at Overstrand.

Sketch a graph of your results from the pedestrian count, vehicle count and EQi at Norwich.

why regeneration has had both positive and negative effects on people. (4)

Fieldwork:

You have carried out your own fieldwork investigating how and why coastal management impacts on coastal processes.

Name your coastal fieldwork location:

.....
Assess the accuracy and reliability of the results of your investigation. (8)
